Mobile Phone Policy

If a mobile phone is seen to be used during a lesson without permission, the teacher will remove the phone until the end of the lesson.

All mobile phones should be on silent and left in a bag during lessons.

Sometimes, they are useful as a learning aid. In this event, with the knowledge of the teacher, a student may use their phone to video themselves or a friend (with their permission), a part of the syllabus that they wish to work on at home. This must NOT then appear on any social media. The teacher's permission must be sought before doing this.

Photographs may NOT be taken during lesson time.

Students may use their phones in between lessons, as long as this doesn't make them late for their next lesson.
